When I was young, I could see your eyes
When I find your eyes, I can see so bright, yeah
They were so bright, that I can find the way
With tears rolling down my face, I find them so nice,
suprise

I can hear your voice inside my head
Hear the words that you never said
Going down this endless road
Hoping to find you, oh yeah...

Yeah!
My eyes, no!
I can find the way back home
Don't wanna be alone

Turn my head, I can see me dead
Break away those feelings that I have for you
My soul is black as sky is in the night (in the night)
My soul is bright for you, my dearest friend, oh yeah

I can hear your voice inside my head
Hear the words that you never said
Going down this endless road
Hoping to find you, oh yeah

Die in my head, I die in my head
I can't find this worth to live anymore
Shoot me, shoot me

I die in my head, I die in my head
I can't find this worth to live anymore
Shoot me, shoot me

My eyes, my eyes
I can't find the way back home, don't wanna be alone
Shoot me, shoot me
