"The Other Side"

Visit "[The Other Side](#)" on MotoLyrics.com

I know what I can live for
I know what I'm going to
I know what I was born to
I know what I can do

I know what I can live for
I know what I'm going to
I know what I was born to
I know what I can do

Feeling fine on the other side
The blood takes you to the other side
Feeling fine on the other side
The fear is mine on the other side

The blood takes you to the other side
The fear is mine on the other side

Feeling fine on the other side
The blood will take you to the other side
Feeling fine on the other side
The fear is mine on the other side
