We eat your soul
Your life is ours
We steak your flesh like sausage on the grill

No one will take us down
No one will track us down
Everyone will be afraid of us
Like they are afraid of the Groke

We eat your soul
Your life is ours
We steak your flesh like makkaraherkku

No one will take us down
No one will eat us gone
Everyone will be afraid of us
And think that we are sick

We eat your soul!
We eat your soul!
We eat your soul!
We eat your soul!

Don't be afraid
You're fucking R-tard
We are just gonna eat your soul

No one will take us down
No one will track us down
Everyone will be afraid of us
Like they are afraid of the Groke
No one will take us down
No one will eat us gone
Everyone will be afraid of us
And think that we are sick
