So many faces  
But you know there's only mine that carries the traces,  
That mark us the same  
We've been losers,  
But there's always a chance to be the one of the  
choosers,  
To be proud of your name

We've got the hearts of ice  
Part of it is just a make believe, but sometimes lies  
Can be made up too real  
So choose your side  
By the things you are out to achieve, you cannot hide  
Or your heart's never gonna heal

Don't you see, this world was made for you and me,  
It's time to change our history

We were born into the flame, how does it feel  
We were born into the flame, you know it's real

There's a dream we share  
A dream we made our own and we will be there,  
Where it rises to shine

This is the time, this is the place,  
Start living right now, right here  
Don't lose your faith, we're in the race  
Just wait for the price to appear

We were born into the flame...
