The only thing you'd have to know  
is who you really needed  
The only thing I'd love to know  
is where should I belong

The only thing I didn't know  
is who you really needed  
The only thing you need to know  
is where should I belong

Oh, my body seems  
floating down a murky river  
Oh, I was lonely  
with you

The only thing you need to know  
is where should I belong  
The only thing I'd love to know  
is where should I belong

Oh, my body seems  
floating down a murky river  
Oh, I was lonely  
with you

Oh, I don't know why  
I was born into this world  
Oh, I don't know why  
I'm here
