I wuz your everyday damn, I wuz diggin' yo
Realer than the dealer pushin' herb as oregano
Connecting all my dots of yesteryear
Exotic images of life and they be crystal clear

Reflectin' on the way it was supposed to be
How the lovin' and the huggin' and the Marvin useta set
us free
Now you be the slick like the MC Ricky D
I send you back to the trailer that you come from starry

Once or twice I tell you again
You're no longer lover or friend
Hear the music make your head nod
When I reminisce over you my God I said

You hear me on the radio
I see you on the TV show
Hurts to know I love ya so
Should have left yo ass a long time ago
You come and go you come and go you come and go

Oh, what a tangled web you weaved
When I gave mad love and you didn't receive
And now it seems that I start to unwind
Why you had to steal my sunshine

Do you understand the metaphoric phrase
I was like a rat and yo mind was the maze
And you was all about some cheesy lines
Next time I'm a stay away from Geminis

You hear me on the radio
I see you on the TV show
Hurts to know I love ya yo
Should have left yo ass a long time ago

Like Nas once said it ain't hard to tell
I know you got a lot of lovers, hope they livid as well
But my life be what I make it so I waste no tears
When I wasn't the one at your movie premiere

You fakin' the funk like Vonda Sheppard
If you an actor than I'm the Katherine Hepburn
(Backup)
And since you get the heartburn from the butter on the
popcorn
You shouldn't be in the theater in the first place

Once or twice I tell you again
You're no longer lover or friend
Hear the music make your head nod
When I reminisce over you my God

You hear me on the radio
I see you on the TV show
Hurts to know I love ya yo
Should have left yo ass a long time ago
