My young's get it fucked when ya talk about this game  
like it's designed in their favor  
Like it ain't outlined for them to waver their rights for a  
little fame  
Get into bullshit fights for a little name to get  
noticed by some niggaz that don't give two fucks about  
you  
Till you make them a few bucks they doubt you  
Tell them you don't do the jobs and shucks and they  
route you to the shelf  
See there is no money is good health  
So they need you to be sick with it  
Ill content and delivery niggaz  
This nation thrives of misery nigga  
So if you ain't trying to let you hard times increase my  
wealth  
Nigga keep that progressive shit to yourself  
This is the business of buying souls and we only fuck  
with those who try to sell them  
You see they may see me as an adversary cuz they  
know  
i'm trying to tell them about the fareset artist who  
grow only to meet indutry acess  
How they take a niggaz dreams and write them off in  
their taxes  
Contracts is confusing  
But don't worry they'll appoint the lawyer for you  
Whore you  
Loan you funds to fuck your soul and make you pay it  
all back  
and still maintain control of stroll your track and your  
hot ass slow flow  
They'll keep you looking good and all that  
But no dough  
You see when they get a bitch they got a bitch  
Incontrary to popular opinion it ain't my sisters that  
switch is my brothers we the dumb motherfuckers  
Harderst niggaz in the street turn to industry suckers  
cuz we refuse to do the knowledge  
Nigga you can't learn this shit in the streets or in  
college

So you better pick up a book or something  
Or fuckin Black Ice will put it in a hook or something  
and hope that you listen to it  
Got you pumpin that poison while they paint you them  
illlusionary parades and keep pissing through it  
You pussies don't know price or the sacrifice that  
this industry makes real niggaz walk  
F-A-B-O-L-O-U-S album number 3 Real Talk
