Down for yours if you're down for mine

Ooooooooo....

Nastyboy Klick, I would die for you

Down for yours if you're down for mine

Ooooooooo....

Nastyboy Klick, are you down for your dj?

Down for yourz if you're down for mine

I'll be that man dropping skill

Give your body chills

Let me wine and dine you boo

No doubt that I'll be good to you

I like a girl that always got's my back

Whenever I need her she'll be standing with a mac

If you down to represent

And put your trust in me

Ain't scared of no guns

And let me run the street

Let me do what I gotta do

And show you I'm fine, love you blind

It's just that hook-ups take time

Ain't gotta have ends or a place to live

Smoking fat philllys

I'm still down wit you kid

So if you want it, come and get it, don't take too long

Cause in the valley of AZ

Finding fly females ain't hard

So come and take a ride

And if you swing to this bounce

Room 6-0-duece

That's what I'm all about

Fulfill your fantasies

And all of your desires

Lay back, pop the top up

And let me take you higher

[Chorus]

Loving you this way, I'll never lead you astray

I knew you were my D.O.G. when you put your trust in me

Down for yours if your down for mine (put your trust in

me)
I'm down for yours, if your down with my flow, keep it
going
I'm always down for my G
Down for yours if you're down for mine

Now all I need is a shorty with a mac like that
Victoria Secret, champagne, and bubble baths
Let the magic man rub you down like a magic lamp
And I'm getting 3 wishes
I likes that
Cause ain't nobody in this whole wide world
Abouts to giving you lovin like this Duke of Earl, uhh
Feel the lovin that I gots for you
Moet, candy, flowers and some diamonds too
Just to let you know how I feel for you
I dedicate my life and my soul to you
So now that you've been thinking of a man for your life
I promise if I get it
I'm a treat you right
Never playa hate
And always down to sex me
And every time I see you
Giving much respect to me
I'll be down for yours
If your down for mine
Cause a love like ours
Ain't easy to find

[Chorus]

What you want Goldilocks
Money can't buy
Butterscotch made divine
Styles like Calvin Klein
Design for the masses
No style you sport clashes
Hazardous to the health of all men
Beauty descends, dividends, lust remains
Heavenly same my intent ignites flames
Exclaim, never complain
To give you affection
If being right's so wrong
You never need correction
Most definitely you get the best of me at times
If lovins what I need
You supply all kinds
I see your brown eyes scheming from across the room
Checking me out but you look away....
No reason to gaze
Look where the game

Competitions the same
Too many heinas lookin good
For me and you to keep playin
So what it be
I'm down for whatever you need
Just me and you
Hand in hand
Roaming through ecstasy

[Chorus]

Down for yours, down for mine, OoOoOo....
Down for yours if you're down for mine
More bounce for my G's
You're my computer love
More bounce G's
Down for yours if you're down for mine
Down for yours if you're down for mine
I want to be your G, baby, I want to be your G
Yes I do

Jesus fellas
