Venus was a fly trap?
The man you loved devoured?
I used to dream about your sister?
Standing in the shower?
But I was never cool?
You thought I was a cowboy?
I wonder where my gun is?
Can you spare a bullet senorita?

I will always be the worst?

Generation X-wing?
That's got to be the death star?
I used to dream about the future?
I used to dream about a lot of things?
But I was never cool?
So you can call me loser?
Yeah you can call me anything?
You want to senorita?

I will always be the worst?

Help me up with?
A pair of wings?
A little rope?
All those things?
She always said I'd find the cure for cancer?
I read my horoscope but I just can't pull it off alone?

Venus was a fly trap?
The man you loved devoured?
I used to dream about your sister?
Fucking me in the shower?
But I was never cool?
So you can call me loser?
Yeah you can call me anything?
You want to senorita?

I will always be the worst?
