### "1921"

Visit "[1921](#)" on MotoLyrics.com

She's gonna be dancing, soon  
Stepping out of her winter, into June  
Lying in fields  
As green as the life she once knew

Spirit please lead your child home  
Bring to her eyes the God she has grown  
Spirit please lead your child home

She came to America, 1921  
And in this new world, she had my mom  
100 years, now she believes  
That her time has come

So spirit please lead your child home  
And bring to her eyes the God she has grown  
Spirit please lead your child home  
Home, yeah
