I was born at the end of time
In the beginning
Up on command post number nine
They gave me the living

With my love in place
They sent me on
Programmed to remain
Of another mother robot's son
With my love I feel no pain

Shine on love, shine on
Up to the heaven
Silver, blue and red horizon
Shine on love, shine on
Up to the heaven

I came down in a silver dream
Just to be given
The memory of your love for me

In this empty place
My circuit's done
Just the cold remains
Of another mother robot's son
With your love I feel no pain

Shine on love, shine on
Up to the heaven
Up to the heaven yeah

My soul was only in disguise, yeah
Underneath my robot eyes, yeah
Now I know my love will shine, yeah, yeah
Up to the heaven, yeah

My soul was only in disguise, yeah
Underneath my robot eyes, yeah
Now I know my love will shine, yeah, yeah
