(I make her say)
Oh, oh-oh-oh
Oh, oh-oh-oh

(When I)
P-p-p-poker face
P-p-poke her face

(I make her say)
Oh, oh-oh-oh
Oh, oh-oh-oh

(When I)
P-p-p-poker face
P-p-poke her face

She Wanna Have Whatever She Like
She Can If She Bring Her Friend
And We Can Have One Hell Of A Night
Through The Day
I only live once so you u know I'm living great
If I live any less then I guess choose my own fate
We be popping bottles staying up hella late
Parties go on till the sun comes up at 8
I'm living fast like my fam said I shouldn't
But I'm doing things people said that I couldn't
Work all day and party just like a student
no time for girls who go and try to act prudent
Millions of girls so why would I settle for less
Why stay up all night, worry and stress
Instead id rather party homie pass the budda bless
Not to be cocky but I only need the best
