

Tata Young "Burning Out"

Visit "[Burning Out](#)" on MotoLyrics.com

I don't wanna take a step back
But I'm running on emptiness
Were just no longer on the same track
And it's killing me in every way

You take me in; shut me out, you're breaking me down
Tell me that I'm the one, but I see through your lies
It's all misleading, you keep me bleeding
It's like I'm burning out, burning out

Chorus:

You're making me feel so alone
Baby just let me let go
Cuz I just can't escape your ghost
The fire you started once is now
Burning out, burning out
I'm burning out, burning out
I just fade away
Were burning out, burning out
We keep on burning out, burning out

I can't find myself leaving
And it hurts with every breath I take
That I will never know the feeling
Of you loving me the same way

Chorus

Have you ever even noticed
All the pain when you look into my eyes
Tell me, have you ever even thought about
That I'm, I'm burning out
