Games we don't want to play  
Same winner everyday  
Kill for the second best  
Feel no more, feel no less  
We have our minutes cut  
We lose our feelings but  
That's what the movies show  
This is where stories go  
Stars we don't want to reach  
Scars we don't want to stitch  
Go where we haven't been  
Fly away, time machine  
Clouds we will chase them out  
Crowds, we will face them down  
This is our secret place  
Outer space, outer space  
Our home forever is outer space  
Black stars and endless seas, outer space  
New hope new destinies, outer space  
Forever we'll be in  
Outer space, outer space

Ground we don't want to feel  
Found what they didn't steal  
Time, we were really lost  
Bridges burnt, fingers crossed

We, shall we ever be free  
With no guarantee  
Life on another plane  
Same before, same again

Go where you want to go  
So no one ever knows  
Only what we decide  
Is it gone  
Has it died

Dry every tear in my eye  
You can tell me why  
This is our secret place

Outer space, outer space

Our home forever is, outer space  
Black stars and endless seas, outer space  
New hope new destinies, outer space  
Forever we'll be in  
Outer Space, outer space

Outer space is where we get together  
And this place we're meant to be  
Stars are dancing and the time is fading  
Dead forever,  
You and me,  
You and me  
Racing stars and counting moons of planets  
In the cosmos, we are free  
There's no atmosphere  
And no obsessions  
It'll always be  
It'll always be  
Our home forever is, outer space  
Black stars and endless seas, outer space  
You new hope new destinies, outer space  
Forever we'll be in  
Outer Space, outer space

Our home forever is, outer space
