"Doschitai do sta (Count up to 100)  
He said "I'm tired"  
He won't be brought back  
You're counting up to 100  
You are dreaming of falling asleep

You're counting up to 100  
100 random names  
And you should sleep and don't think about him  
And you should sleep and don't think about him  
And you should sleep and don't think about him

Your boat is empty  
near the alien coasts/ banks  
You're counting up to 100  
100 snows at a dawn

This theme/ subject is simple  
You know what you should do

You should just count up to 100, and forget  
You should just count up to 100, and forget  
You should just count up to 100, and forget

FOR-E-VER

So count, count, count up to 100  
So count, count, count up to 100  
So count, count, count up to 100  
So count, count, count up to 100

4 5 6 7 8 .....

100 sleepless nights  
In the labyrinths of love  
100 random keys  
But only zeroes as the result

100 friends, 100 enemies  
100 melted icerocks

Be forgetting about him. 101, 101  
Be forgetting about him, forgetting forever  
Be forgetting about him, forgetting forever

FOR-E-VER.

So count, count, count up to 100  
So count, count, count up to 100  
So count, count, count up to 100  
So count, count, count up to 100

59, 60, 61, 62 .....

So count, count, count up to 100  
So count, count, count up to 100  
So count, count, count up to 100  
So count, count, count up"
