This is your land,
This is your country,
It is your love,
It is your soul.

This is your moon,
This is your star,
It is your night,
It is yours forever [?]

It is my game,
That fixed the clouds,
The sky is halfed,
I'll give you the sun.

I will... I will protect myself with glasses... protect myself
with glasses...

This is your [?]
This is your curve,
It is your storm,
They are your colors.

This is yours, mine,
This is your simplicity,
It is my fantasy,
It is your only.

It is my game,
That fixed the clouds,
The sky is halfed,
I'll give you the sun.

I will... I will protect myself with glasses... protect myself
with glasses...

It is my game,
That fixed the clouds,
The sky is halfed,
I'll give you the sun.

I will... I will protect myself with glasses... protect myself
with glasses...

I... I...

It is my game,
That fixed the clouds,
The sky is halfed,
I'll give you the sun.

I will... I will protect myself with glasses... protect myself
with glasses...

It is my game,
That fixed the clouds,
The sky is halfed,
I'll give you the sun.

I will... I will protect myself with glasses... protect myself
with glasses...

It's... I...
