I had a tingling sensation
Like I was being charged with electricity
My pulse was pounding and skipping beats and then
pounding again
It's been coming back every so often
Stronger and stronger

Harder, stronger
Show me, babe
Bring it, baby
(...) in the water
(4X)

I had a tingling sensation
Like I was being charged with electricity
My pulse was pounding and skipping beats and then
pounding again

It's been coming back every so often
Stronger and stronger

It's been coming back every so often
Stronger and stronger...
