"Get Up"

I know that you got somebody
Yeah, I got someone too
We don't have to stay unhappy
And do the shit we do
Baby, I wanna know your status
I see something big between us
Even if you got somebody
We're just a little bit better

I can never see me be bored by you
I can never be together and be bored by you
We got to get up and make this happen
No one's walking back home and I'm all alone
I can never do the things on my own
We got to get up and make this happen

People say
"Uh, uh don't do it C"
I just do what's on my mind
Baby, I wanna know your status
I see something big between us
Even if you got somebody
We're just a little bit better

I can never see me be bored by you
I can never be together and be bored by you
We got to get up and make this happen

No one's walking back home and I'm all alone
I can never do the things on my own
We got to get up and make this happen

I wanna be your Formula 1 driver
Hey girl, I want nobody in my front seat
Give you the number to my cell phone, girl
When you text me we meet the same day

When you ask me how we get it together
You know I told you we're a little bit better
When you ask me how we get it together
You know I told you we're a little bit better

"Hey what you saying C?"
We gotta stop being so god damn selfish
The dirty feet go
The clean hands go

I can never see me be bored by you
I can never be together and be bored by you
We got to get up and make this happen
No one's walking back home and I'm all alone
I can never do the things on my own
We got to get up and make this happen
