Listen

Close your eyes and take my hand
I know you're wondering but you will soon understand
See, love needs time to grow and time to run free
That's why we should get away, so we can chill
privately

Through the week you go your own way and I go mine
Never truly enjoying each other, never a chance to
unwind
So, give your heart to me in my hands right now
We'll search for tomorrow under a silver cloud

At last we're alone
And I wanna fly so high that I kiss the sky, all alone
And I wanna fly so high that I kiss the sky

It's quiet as the morning rain drops on the ground
We're bless so gently with the love that's all around
And I'm so glad to know you the way I do
My special friend, we become much closer
The more time we spend together in love

The one I think of, when I'm far away, you brighten my
day
And now that you're here, my destine is clear
Want you always near by my side as we hide away

At last we're alone
And I wanna fly so high that I kiss the sky all alone
And I wanna fly so high that I kiss the sky

Close your eyes, relax your mind
Let's find the time to enjoy each other's love
Take my hand, follow me
Make it last forever and ever

At last we're alone
And I wanna fly so high that I kiss the sky, all alone
And I wanna fly so high that I kiss the sky

At last we're alone
And I wanna fly so high that I kiss the sky, all alone
And I wanna fly so high that I kiss the sky

And I wanna fly so high that I kiss the sky, all alone
And I wanna fly
