### "Make Up Your Mind"

Visit "[Make Up Your Mind](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Tell me why you're playin' with my mind, boy  
you either do or don't  
you will or you won't  
take some time to open up your eyes  
to see the things you do are foul and yes it hurts  
i really don't understand i want to know if you're the  
man  
cause if you're not the i'll have to change my plans

Although i'm crazy bout ya i can live without ya  
and you wasting my time  
boy its time i told ya, i can't wait no longer  
you got to make up your mind

I'm not one to put you under pressure  
now its time i told ya how i really feel  
and to set my mind aside from pleasure  
and see the situation just for what it is  
and now that you understand i need to know are you  
the man  
cause if you're not the one i'll have to change my plans

Although i'm crazy bout ya i can live without ya  
and you wasting my time  
boy its time i told ya, i can't wait no longer  
you got to make up your mind

tell me, tell me  
i wanna know, i wanna know  
boy, you're runnin' outta time got to make up your mind  
tell me, tell me  
i gotta go, i gotta go baby  
this is how i feel inside i won't waste your time or mine  
i really just don't understand after all i do for you  
still you show no gratitude

Although i'm crazy bout ya i can live without ya  
and you wasting my time  
(why you wanna waste my time)  
boy its time i told ya, i can't wait no longer  
you got to make up your mind

Although i'm crazy bout ya i can live without ya  
and you wasting my time  
boy its time i told ya, i can't wait no longer  
you got to make up your mind  
(got to make up your mind)

you either do or don't (make up your mind)  
you either will or won't (make up your mind)  
but whatever you gonna do  
just let me know and i'll come through (make it up,  
make it up)

Although i'm crazy bout ya i can live without ya  
and you wasting my time  
(i won't let you waste my time)  
boy its time i told ya, i can't wait no longer  
you got to make up your mind  
(repeat)

tell me, tell me  
i wanna know baby  
tell me, tell me  
i gotta go baby  
i wanna know baby, oh no  
you either do  
you either don't  
you either will  
you either won't
