Goat's head in the deli case
Oh, sweet angel, angel bearded face
Paper-machÃ© parade on at night
That's what you doing with no sunlight

In the tropical, ooh the tropical, tropical ice-land
Tropical, ooh the tropical, tropical, icy I seem

Black church on a cold tundra
Mountain glacier, glacier, glacier stream
Black stone beach and a black death bottle
Is all me and my baby'll need

In the tropical, ooh the tropical, tropical ice-land
Tropical, ooh the tropical, tropical, icy I seem

Take intermission at the movies
Let's freeze outside for one quick smoke
And take a Klondike bar from the pop machine
Hey it's ice cream, no, no not Coke

In the tropical, ooh the tropical, tropical ice-land
Tropical, ooh the tropical, tropical, icy I seem

We'll meet in Kristiana next summer
Let's get out before we melt away
I've seen enough stray ponies and puffins
To get me through till the end of May

In the tropical, ooh the tropical, tropical ice-land
Tropical, ooh the tropical, tropical, icy I seem
