

Fiery Furnaces, The "Waiting To Know You"

Visit "[Waiting To Know You](#)" on MotoLyrics.com

I'm waiting to know you, far away
Send up a balloon says write to me soon
I'm waiting to know you, far away
Set up at the pier, wait 'til you get here

And when i'm about to give up hope
But nope
With my telescope
I'm standing guard the navy yard to see
Could there one for me be
Baby oh no where did you go

I'm waiting to know you, far away
Flashlight the cave; listen short-wave
I'm waiting to know you, far away
Dredge up the lake; all the trees shake

And when i'm about to give up hope
But nope, with my telescope
I'm standing guard the navy yard to see
Could there one for me be
Baby oh no where did you go

I'm waiting to know you, far away
Send up a balloon says write to me soon
I'm waiting to know you, far away
Flashlight the cave, listen short-wave

And when i'm about to give up hope
But nope, with my telescope
I'm standing guard the navy yard to see
Could there one for me be
Baby oh no where did you go

Baby oh no where did you go
