Don't build your hopes too high  
Don't fall for the look in her eye  
Don't wish on a twinklin' star  
Don't let it go too far

She'll love you  
She'll leave you  
With a broken heart  
With a broken heart

Just let her tell you things she'll do  
Just let her make a promise to you  
Just let her tell you all those lies  
Just remember there will be goodbyes

She'll love you  
She'll leave you  
With a broken heart  
With a broken heart

She'll tell you she loves you  
She told me that before  
She'll tell you she wants you  
Then she'll walk out the door

She'll go off with somebody new  
She'll do them like she did you  
She'll forget she ever knew your name  
She'll make you think that you're to blame

She'll love you  
She'll leave you  
With a broken heart  
With a broken heart

She'll tell you she loves you  
She told me that before  
She'll tell you she wants you  
Then she'll walk out the door

She'll go off with somebody new

She'll do them like she did you  
She'll forget she ever knew your name  
She'll make you think that you're to blame

She'll love you  
She'll leave you  
With a broken heart  
With a broken heart
