I won't cry
I won't cry
I won't cry for you

I won't cry
I won't cry.

Lately I've been thinking I'm not gonna make it here
with you
girl.
All the time I'm waisting worrying if you're with
someone new
girl.
I'm getting over the pain I feel inside
Even though it hurts me so I know I've gotta let you go

So baby
please
just let me know.

I won't cry
I won't cry

I will try and understand why you love another man.
I won't cry
baby
I won't cry

Tell me what did I say to make you turn and walk away.

All our time together

I can't seem to shake it from my mind
girl.
Did you mean to'rever when you shot me down
with your good-bye
girl?
You don't have to worry
I can get along
with or without you around

Nothing more could bring me down
so baby

tell me who you found.

I won't cry
I won't cry
...

I won't cry
I won't cry
.

I'm getting over the pain I feel inside

Even though it hurts me so I know I've gotta let you go

So baby
please
just let me know.

I won't cry
I won't cry
...
I won't cry
I won't cry
...
