Moore had the floor he was looking to score  
jake was in the back trying to stay laid back  
i don't even know what we're doing here anymore  
i can't feel anything  
puked out the side of a moving van  
hayes had the shits and he missed the can  
marty and his wife got us settled into the tour  
thank god for them

looked inside to a world within  
this time it's no easier than it's ever been  
mike brought a couple extra aspirin for the pain  
i'm jumping again

cocaine coming from around the bend  
we'll be up all night to begin again  
we got seven hundred miles to be heaven sent  
for those broke kids  
they're bringin it  
sold three records for a bottle of gin  
we got a healthy dose of love so we'll be back to win  
a few more souls they'll be filing into the shows  
at least we hope

.....

i want to believe in what i want to believe
