Innocence is hurting, a world speaks out of tune

Promise calls and promise falls, what are we to do?

With a clouded view, you follow me through

Sadly the tides are changing, my world slips out of you

Your body falls, my body calls, what are we to do?

With a clouded view, you follow me through, follow me through

My life's turning pages, I see a promised day

Watchmen never age here, they just sleep in vain

Drowning people stare here, they don't care to call

I rebury the pages, Kthulhu calls

You'll see, you'll see her when she starts to form

You'll see, you'll see her when she starts to call

In the name of Jesus Christ, won't you fear my name?

I've been around since Moses, your preacher never came

You'll see, you'll see her when she starts to form

You'll see, you'll see her when she starts to call

Follow me

You sleep, you sleep, you sleep

You sleep and see me

Follow me

You sleep, you sleep, you sleep

It's just another day, remember, I'm calling for you
Lord

(Remember)

Just another day, remember, she's calling for you

Just another day, Kthulhu, I am calling for you

Just another day, an empire has fallen from view

You sleep, you sleep, you sleep

You sleep, you sleep, you sleep

Follow me

You sleep, you sleep, you sleep

You cannot follow me
