PUT IT THERE (Paul McCartney)

Give me your hand, I'd like to shake it
I want to show you I'm your friend
You'll understand if I can make it clear,
It's all that matters in the end

Put it there, if it weights a ton,
That's what the father said to his young son
I don't care, if it weights a ton,
As long as you and I are here, put it there
Long as you and I are here, put it there

If there's a fight, I'd like to fix it
I hate to see things go so wrong
The darkest night and all its mixed emotions
Is getting lighter, sing a long

Put it there, if it weights a ton,
That's what the father said to his young son
I don't care, if it weights a ton,
As long as you and I are here, put it there
Long as you and I are here, put it there

From "Flowers in the Dirt" 1989
