Making the scene  
I really mean  
You should be there with me  
And make believe  
I'll find a place for us  
To be alone  
Here in the depths of our emotion  
Don't you know baby  
Get set everybody  
We're on our way  
To meet you  
Too late everybody  
We're on our way  
To nowhere  
And I will be there  
Kick out your seat  
Let's elevate  
Hold on to what you know  
Is gonna break  
A roller coaster ride  
Inside your mind  
Is what need to terrify you  
Don't you know baby

#### CHORUS

Never gets you too far  
Never gets you too far now  
If you climb aboard there's nothing to it  
If you concentrate we'll see you through it  
Don't forget at the end of the ride  
You'll be hypnotized by the sound it's too late

#### CHORUS

If you want me to?.
