

Taxiride

"Hold On"

Visit "[Hold On](#)" on MotoLyrics.com

Hold on
to all the things that you should never hold on to,
you hold on
desert sands would never shine the way you do
To many chances taken too far

Chorus:
Open your mouth
Let your final breath out now.
Turning the world around.
Screaming and shout, as the power runs out now,
turning the world around

Let go
Of all the secrets and the lies you've sold and saved
I know
You're imprisoned by a road that knows no end.
Take the chance to say you're sorry

Open your mouth
Let your final breath out now.
Turning the world around.
Screaming and shout, as the power runs out now,
turning my world around

Would you ever turn the pain around?
Now its time we started coming down on you,
Watch your precious kingdom coming down.

Chorus

Turning my world upside down
Turning my world
