"The Fatal And The Fragile"

Awake me from my sleep
Before I lose my sight
I'm balanced on a blade of desperation
As my demons collide

Have you ever felt so alive?
The fatal and the fragile collide
Well I hope the sun will shine again

Mistakes that I have made,
Have only paved the way
from moving through a dangerous situation
to start a brand new day

Have you ever felt so alive?
The fatal and the fragile collide
And I hope the sun will shine again

Again

My lifes got a hold over yours

{Musical Interlude}

Now I've never felt so alive?
The fatal and the fragile collide
And I hope the sun will shine again
Again
