"We're All In The Dance"

Life's a dance, we all have to do
But why does the music quiet?
People are moving together
Close as the flames in a fire

Feel the beat; music and rhyme
While there is time.

We all go 'round and 'round
Partners of lost and found
Looking for one more chance
All I know is,
We're all in the dance

Night and Day, the music plays on
We are all part of the show
While we can hold on to someone
Even though life won't let us go

Feel the beat; music and rhyme
While there is time.

We all go round and round
Partners of lost and found
Looking for one more chance
All I know is,
We're all in the dance

We're all in the dance

We all go round and round
Partners of lost and found
Looking for one more chance
All we know is,
We're all in the dance
