Married to the good life  
I said I'd be a good wife  
When I put on this ring  
I drive a new Mercedes  
Play tennis with the ladies  
But all the finer things  
But all that don't mean nothin'  
When you can't get a good nights loving  
Chorus  
Whoa, little rock  
Think I'm gonna have to slip you off  
Take a chance tonight and untie the knot  
There's more to life than what I got  
Whoa, little rock  
You know this heart of mine just can't be bought  
I'm gonna find someone who cares a lot  
When I slip off this little rock  
Well, I wonder if you'll miss me  
He doesn't even kiss me  
When he comes home at night  
He never calls me honey  
But he sure loves his money  
And I'm the one who pays the price  
but when he finds this ring  
He'll see  
He keeps everything but me  
(Repeat Chorus Twice)  
Oo, yeah  
Little Rock  
Oo, yeah
