I got an empty feelin' when that moving van pulled up  
It got a little emptier as I watched them fill that truck  
And when they carried out your clothes  
It took my breath away  
Now they're headed for that bed  
The thought keeps runnin' though my head

Baby, maybe, we should just sleep on it tonight  
And give our hearts just one more chance to change  
our minds  
I could be wrong but goodbye just don't feel right  
So baby, maybe, we should just sleep on it tonight

I'll pay them boys to stop right now  
And leave that truck out on the curb  
The TV and the phone's packed up  
So we won't be disturbed  
There's not a light left in this room  
Just a shadow of a doubt  
So let's make sure we don't give up  
Before we've thought this through enough

Baby, maybe, we should just sleep on it tonight  
And give our hearts just one more chance to change  
our minds  
I could be wrong but goodbye just don't feel right  
So baby, maybe, we should just sleep on it tonight

Baby, maybe, we should just sleep on it tonight  
And give our hearts just one more chance to change  
our minds  
I could be wrong but goodbye just don't feel right  
So baby, maybe  
Baby, maybe  
Baby, maybe  
We should just sleep on it  
Tonight
