Thanks a lot
You took my heart and now you're all grown up
And I read you like a book, with each new page I take a
second look
But I know nowÂ...

Life is wasted on the living
Life is wasted on the fools that walk away
Life is wasted on the living
Life is wasted on the fools that walk away

If you took time
To appreciate the things you have in life
You just might find
The things you buy will end up own you it's just a matter
of time
And you will see why...

Life is wasted on the living
Life is wasted on the fools that walk away
Life is wasted on the living
Life is wasted on the fools that walk away

So what are you waiting for?
What are you waiting for?
You walk away but that causes problems
