yeah yeah yeah oh
i say the sky is clear I'm ready to go
I'm in my spaceship are you ready to roll

Let me be your captain, girl
cause i can take control
No need to worry
Theres no problems where we go

I'm about to take off
up up and away
I'm about to take off
up up and away

Let me be your captain girl
cause I can take control
no need to worry
theres no problems where we go

Nothing better than this
We on some other shit (yeah)
floating on cloud nine (nine)
Now the light just blinked off (blinked off)
Now I'm gonna take my time
I know what ya want (want)
and I got just what you need
So tell me what ya gon' do
Cause I wanna put it on you

I can be your captain (captain)
I can be your he-man
Anything you want on the weekend

I say the sky is clear I'm ready to go
I'm in my spaceship are you ready to roll

Let me be your captain girl
Cause I can take control
No need to worry
theres no problems where we go

I'm about to take off

up up and away
I'm about to take off
up up and away

Let me be your captain girl
cause i can take control
no need to worry
theres no problems where we go

(Dizm) Girl i live life so lavishly
my whip game is extravally
so please dont park your shit by mine
unless you like embarrassment
so women think I'm heaven sent
Cause I'm out of this world
Best believe that i dont sleep on shit
Cause i's about it girl

I got pimpin' in my blood
so there's pimpin in my veins
I got a question for ya girl
Have you ever flew a plane
Now tell me girl do you need a driver?
Cause I am fully dedicated rider

And now these sparks are blowin'
I get inside ya I take it slow
Then I'm gonna have you screamin
For more
If you let me then i'll beat it til ya sore
Could you imagine me walkin through ya door

I say the sky is clear I'm ready to go
I am in my spaceship are you ready to roll

Let me be your captain girl
Cause i can take control
No need to worry
there's no problems where we go

I'm about to take off
up up and away
Im about to take off
up up and away

Let me be your captain girl
cause i can take control
No need to worry
theres no problems where we go
