"Thrown Away"

Visit "[Thrown Away](#)" on MotoLyrics.com

I, I want to tell you everything that's on my mind in a
short time

I, I want to let you

I want to let you in on something called a secret

Don't throw it away

Don't wait 'til tomorrow

Because(For) what is today but

Yesterdays tomorrow

Don't throw it away

Don't waste away

Because what is today but

Yesterdays tomorrow

I, I want to give you

I want to give you just one little piece of advice

I, I need to hear you

I need to hear everything that is important

Don't throw it away

Don't waste away

Don't throw it away

Don't waste away
