Change

Put a period in your life

And make a fresh start

Exercise your mind and open up your heart

Think of all the things you may want to do

And throw out your old clothes

That make you dreary

And dress up in something new

Focus on your future

And stop turning to look back

Pack your bags and board a train

Travel on a different track

Don't be afraid to take the chance

To make a different turn

Just imagine all that lays ahead

And the opportunities to learn

Step out in front and pick up the pace

Smooth the wrinkles in your brow

And put a smile on your face

Never be afraid to love

Never be afraid to just be

Just cast away the chains of doubt

Have the courage to be free

Don't cloud your eyes with other's lies

See only what you want to see

Just duplicate this simple truth

Have the courage to be free

Chorus:

Open your eyes, you can fly

Open your eyes, you can fly

You can fly

Never be afraid to love, no, no, no, no, no

Never be afraid to just be

Cast away the chains of doubt

Have the courage to be free

Chorus

Fly away

Remember

You can't wait for other's

To applaud what you do

So just congratulate yourself

And start something new

Chorus.
