Walk on, walk on...

Sink like a stone as you stick to my bones  
And I can feel myself deeper in you  
One hand in the fire dripping wet with desire  
And there's nothing that I would rather do

Don't tell me this is love  
Don't tell me this is fate  
Save your awkward words  
We both came for the taste

Take me farther fuck me harder  
Give me drugs and go away  
Walk on, walk on...

All the restless nights demons we have fed  
All the reckless hearts burning in my bed  
Though it doesn't show I still need you  
Deeply, madly

Pressed on pale flesh, smell the sweat and the death  
As your hungry eyes just eat me alive  
You lips are a coffin killing kisses too often  
Drowning in the blackest skies

Don't tell me this is love  
Don't tell me this is fate  
Save your awkward words  
We both came for the taste

Take me farther fuck me harder  
Give me drugs and go away

All the restless nights demons we have fed  
All the reckless hearts burning in my bed  
Though it doesn't show I still need you  
Deeply, madly

Deeply, madly in love  
Completely and sadly enough

I am deeply and madly in love  
With my own self destruction

Take down the body as it tears down the walls  
Words like forever have no use at all  
As soon as you cum then I am gone  
So walk on, walk on...

Take me farther fuck me harder  
Give me drugs and go away  
Walk on, walk on...

All the restless nights demons we have fed  
All the reckless hearts burning in my bed  
Though it doesn't show I still need you  
Deeply, Madly

Deeply, madly in love  
Completely and sadly enough  
I am deeply and madly in love  
With my own self destruction
