Well come and see how they look so fine
So purge your mind and stand in line
You could have it if you'd only try
Step right up and please the eye

Here we are in the wake of the world
I can see that it shouldn't matter
I don't want to waste your love
I can't compete I'm a fashion disaster
You better be dressed to kill
You better be dressed to kill
You better be dressed to kill
You better be dressed

Well some cry love and do their drugs
With massive sex appeal
What you gotta get up if you came to get down and
You better be dressed to kill

To live real fast and grab the cash
Some do it for the thrill
But you gotta get up if you came to get down and
You better be dressed to kill
You better be dressed to kill
You better be dressed to kill

Well I was young when I walked away
A commercial for everything I hate
You could too don't be afraid
Life what's lived it's not what's made

Here we are in the wake of the world
I can see that it shouldn't matter
I don't want to waste your love
I can't compete I'm a fashion disaster
You better be dressed to kill
You better be dressed to kill
You better be dressed to kill
You better be dressed

Well some cry love and do their drugs

With massive sex appeal
But you gotta get up if you came to get down and
You better be dressed to kill

To live real fast and grab the cash
Some do it for the thrill
But you gotta get up if you came to get down and
You better be dressed to kill
You better be dressed to kill
You better be dressed to kill

So purge your mind, so stand in line
So purge your mind, so stand in line

Here we are in the wake of the world
I can see that it shouldn't matter
I don't want to waste your love
I can't compete I'm a fashion disaster
You better be dressed to kill
You better be dressed to kill
You better be dressed to kill
You better be dressed to kill
