

## **Fine Frenzy, A "Lifesize"**

Visit "[Lifesize](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We stood so tall  
We caught a plane  
By the wing and held it safe  
Until we found it a place to land

We laid across the ocean wide  
Bridged the gap in record time  
People traveled across and kissed our hands

All for love  
We become  
Larger than lifesize  
Wondersome  
Great in the eyes of someone  
Larger than lifesize we become  
Great in the eyes of someone

We smiled so bright the sun went down  
Rose above the maddening crowd  
Lit the streets with the sweetest glow  
We held the globe and made it turn  
Wandered through the universe  
The men of science observed through telescopes

All for love  
We become  
Larger than lifesize  
Wondersome  
Great in the eyes of someone  
Larger than lifesize we become  
Great in the eyes of someone

Larger than lifesize we become  
Larger than lifesize we become  
Great in the eyes of someone
