[Hook x2: TuFace Idibia]

Can you feel the sound
VIP and 2Face burn it down
Just to make you bounce along
Jump around, up and down
Baby, cool down
Don't wanna see you messing around
Don't wanna hear say you freaking around
Cuz you are my number one

[Chorus:]

My love is here to stay, won't go away
I promise to love you everyday
Oh ma cherie, no breaking me
Cuz I truly love you
And you are my number one
