erase everything
obviously something is wrong here
inform everyone
let this ring honest and clear

step in time to this one
governed by your ignorance and fear
timing's everything
and i can't take another ????????????????

this is meant to hurt
this is meant to habit form
fate of the old
and you knew all along
while it does what it's told
and i've barely had enough

deeper down you fall
losing life the faster we go
and and you ?????
????? for the fact that we show some spine

this is meant to hurt
this is meant to habit form
fate of the old
and you knew all along
it does what it's told
and i've barely had enough

erase everything
obviously something is wrong here
erase everything
obviously something is wrong here
