Hello to the world  
You decide what you are  
I hide it when it rains  
And i can grab hold of love if i want it

Hello to the world  
You decide how far  
Why hide in the rain  
When you can grab hold of love if you want it

You wanted everything  
And it is what you got  
A love for better days  
Your heart all tied in knots  
Why cant you let yourself be anything  
Why cant i let myself let it be

Wheels keep spinning around, still figuring out just  
where to begin  
Head still dizzy in clouds still figuring out where to fit in  
Never to roam here one day without  
Oh how the days just slip away  
Never to roam there one day without  
Whenever you want enough  
I could never get enough  
Pulled me in and spun me around  
Hooked me on the run around

Hello to the world  
You decide what you want  
I wanna hide in a cave  
When i can grab hold of love if i want it

You wanted everything  
And it is what you got  
A love of better days  
Your heart all tied in knots  
Why cant i let myself hear anything  
Why cant i let myself let you let it go
