i cry for you
i cry for you
i cry for you
i cry for you

love me
tender
love me
true
love
can always
see you through

i hope you're fine
i hope all's well
given time
hope springs eternal
who finds conclusions
with love, hope and confusion

i cry for you

life
has no fun anymore
time
is on the run for sure
no place to run anymore

love, hope and confusion.
i hope you're fine
i hope all's well
give 'em hell
hope springs eternal who finds conclusions
with love, hope and confusion

i cry for you.....
