Hey we need to stay together girl  
Think about it  
There was something about me and you girl  
Look here

When God created human beings  
I bet he didn't think of bombs and things  
I bet he wonders why  
Just like I never imagined it would be anything between  
you and me  
I know 'cause I cry  
I cry

Chorus  
You were my sunrays  
Without you girl there was no days  
Never dreamt to speak the phrase  
But what the fuck just happened  
You were the heart I owned  
The beat just like a metronome  
Can't breathe my heart is gone  
Now what the fuck just happened  
What just happened girl

I was always the one behind  
You would run up and keep me in line  
I looked up to you damn this hurts  
All these years of discipline  
Just to end up here at the end  
Can you tell me what I've learned  
What I've learned

We need to stay together girl  
Hey  
We need to stay together girl  
Think about it

Chorus

2x  
You were my friend

My friend 'til the end  
You were my friend  
Now what the fuck just happened

We need to stay together girl  
Hey  
We need to stay together girl  
Think about it

Chorus
