Winter's coming  
It'll soon will be here  
If we knew what it meant  
We would take care

Snow is falling  
Where the snow falls  
If we knew what it meant  
We would take care

We would dance, light up the sky  
With your message fly  
With your message  
Bells will ring out for our love

We can do it, gonna do it tonight  
Sing till we fly together  
Dance 'til we're high together  
Dance 'til we're high together

Write a letter to a new love  
Drop a line to a true love  
Winter's coming  
It'll soon be here

If we knew what it meant  
We would take care  
Shake our heads  
We would be there

We would dance, light up the sky  
With your message fly  
With your message  
Bells will ring out for our love

We can do it, gonna do it tonight  
Sing till we fly together  
Dance 'til we're high together  
Gonna do it right now

Light up the sky

With your message fly  
With your message  
Bells will ring out for our love

We can do it, gonna do it tonight  
Sing till we fly together  
Dance 'til we're high together  
Dance 'til we're high together

Light up the sky, gonna do it tonight  
Sing till we fly together  
Dance 'til we're high together  
Gonna do it right now
