I've come so far to thank you.

Blood flows from raining eyes.

Still in bed you never lose your head.

I said what's that light on I see.

Problem is you never seem to please me.

You painted pictures of me.

I've never felt so high.

I've never felt so low.

No more screaming advice.

It's what I already know.

I'm not willing to die.

I'm not ready to go.

My view was never you.

You painted pictures of me.

(??)

(??)

You seem too constipated.

No help from me tonight.

Still in bed you never lose your head.

I said what's that light on I see.

Problem is you never seem to please me.

You painted pictures of me.
I've never felt so high.
I've never felt so low.
No more screaming advice.
It's what I already know.
I'm not willing to die.
I'm not ready to go.
My view was never you.
You painted pictures of me.
Still in bed you never lose your head.
What's that light I see?
Problem is you never seem to please me.
You painted pictures of me.
I've never felt so high.
I've never felt so low.
No more screaming advice.
It's what I already know.
I'm not willing to die.
I'm not ready to go.
My view was never you.
Never you.
Never you.
Never you.
You chose straight out to fuck me.
