Farewell today  
Travel on now  
Be on your way  
Go safely there  
And never worry, never care  
Beyond this day  
Farewell tonight  
To all joy and to all the life  
Go on, go peacefully  
We can't keep your majesty  
Be on your way  
Make way for the last king of May  
And make a cardboard crown for him  
And make your voices one  
Praise the crazy mother's son, who loved his life  
Farewell today  
Travel on now  
Be on your way  
Can't bear the very thought that we  
That we could keep your majesty  
Be on your way  
Make way for the last king of May  
And make a hole in the cloud for him  
Raise your voices up  
Drink your loving cup  
To his long life  
To his long life  
Make way for the last king of May  
Make a hole in the sky for him  
And raise your voices up  
Lift your loving cup  
To his long life  
His long life  
And raise your voices up  
Lift you loving cup  
To his long life  
To his long life  
His long life  
His long life
