Drop to the dance floor and she caught my eye
Took her by the hand and we danced the night
I show that picture make sure you're gonna stay right
here
I'll be right back
She , on the dance floor
While I buy her drinks
She disappeared so quickly
Where could she be
Searched around and around
Tell me why did she leave me
Got to get to know her name
I'm running out
I got to find my Cinderella
Got until midnight
To find her and make her all mine
Cause I know that you are out there I got to make my
way to you
Oh I got to find you tonight
I got to find you tonight
Tonight tonight
Whatever I got to do
I'll do to find my Cinderella

Walk up to the bar
Sat down with my two drinks
Feeling lucky and out of this disbelieve
Look up at the TV and she was right there
Baby the reason why I ,
She took of the dance floor
While I bought as drink
Disappeared so quickly
Where could she be
Searched around and around
Tell me why did she leave me
Got to get to know her name
I'm running out
I got to find my Cinderella
Got until midnight
To find her and make her all mine
Cause I know that you are out there I got to make my

way to you
Oh I got to find you tonight
I got to find you tonight
Tonight tonight
Whatever I got to do
I'll do to find my Cinderella

I got to find a way
My Cinderella
(repeats)

I got to find my Cinderella
Got until midnight
To find her and make her all mine
Cause I know that you are out there I got to make my
way to you
Oh I got to find you tonight
I got to find you tonight
Tonight tonight
Whatever I got to do
I'll do to find my Cinderella
