Somebody said every day was gon' be sunny skies
Only Marvin Gaye and lingerie, I guess somebody lied
Started discussing it then fighting, to 'don't touch me,
please'
Then it's let's stop the madness, baby come lay with
me
And truth be told I'm waving my flag before it goes bad
'Cause we made it this far for better or worse
I wanna feel it even if it hurts
If I gotta cry to get to the other side, let's go 'cause
we're gon' survive

We stay on the front lines
Yeah, but we're still here after the bomb drops
We go so fast, we lose control
The fire starts then we explode
The smoke clears we dry our tears
Only in love and war

Sometimes you're my general, while I quarterback
these plays
Sometimes you're my enemy and we're throwing
grenades
We'll be laughing and chilling, and you laying on my
chest
Don't know what happened 'cause things just went left
But here we go back down that road
That's just the way that it goes
'Cause we made it this far for better or worse
I wanna feel it even if it hurts
If I gotta cry to get to the other side,
as long as you're there I'll survive

We stay on the front lines
Yeah, but we're still here after the bomb drops
We go so fast, we lose control
The fire starts then we explode
When the smoke clears we dry our tears
Only in love and war

As long as we make up after every fight when it's over

You know I'm coming home
I'm taking off this armor

And we stay on the front lines
Yeah, but we're still here after the bomb drops
We go so hard, we lose control
The fire starts then we explode
When the smoke clears we dry our tears
Only in love and war
